What is Remedy Tax Co.?

Tax resolution is the process of a licensed professional assessing your unique situation and using their knowledge of IRS rules to find the right solution.

Many companies make false promises, offering "pennies on the dollar" or specific percentages that rarely match reality. These tactics often cost taxpayers extra fees and additional frustration later.

Our Solution

Our consultations do not come with exaggerated promises. Instead, we leverage our experience to help you resolve past-due taxes through legitimate IRS programs. You could negotiate with the IRS yourself, but the process is time-consuming, confusing, and stressful. Let our knowledge make it simple.
